

CRICKSTATS

Phase 5: Project Development

Team Lead: A.G. Vasheela Afrin

Team Members: R. Sivasakthi, S. Subha

Platform: Salesforce (Lightning Experience)

Step-by-Step Development

Milestone 1: Salesforce Developer Account Creation

- Open the Salesforce Developer Edition sign-up page and fill in the form.
- Open the verification email, click the link and set a password.
- Log in and click the gear icon, then Setup.

Milestone 2: Object Creation

- Setup, Object Manager, Create, Custom Object.
- Create **Player** (label, plural label, record name, allow reports and search).
- Create **Match Performance** with Record Name as Auto Number (MP-{0000}).
- Optionally create **Team**.

Milestone 3: Tabs

- Setup, Tabs, Custom Object Tabs, New.
- Choose the object (Player, Match Performance, Team), pick a tab style, save.
- Repeat for each object.

Milestone 4: The Lightning App

- Setup, App Manager, New Lightning App.
- App name: CRICKSTATS. Choose the standard navigation.
- Add the Player, Match Performance and Team tabs.
- Assign to user profiles and save.

Milestone 5: Fields and Relationships

- On Player: add Role (picklist), Age (number) and the Team lookup.
- On Match Performance: add Match Date, Opponent, Venue, Runs Scored, Balls Faced, Wickets, Overs Bowled.
- Create the **Master-Detail** field Player on Match Performance.
- Add the Strike Rate formula field: $\text{Runs Scored} / \text{Balls Faced} * 100$ (guard against zero balls).

Milestone 6: Roll-up Summary

- Object Manager, Player, Fields, New, Roll-Up Summary.
- Total Runs: Summarized Object Match Performance, SUM of Runs Scored.
- Total Wickets: SUM of Wickets.
- Matches Played: COUNT.
- Highest Score: MAX of Runs Scored.

Milestone 7: Flows

- Setup, Flows, New Flow, Record-Triggered Flow.
- Object: Match Performance; trigger: a record is created.
- Add a Decision element (for example Runs Scored 100 or more, or Wickets 5 or more).
- Add an action (update a field or send an email).
- Save, debug, and activate.

Milestone 8: Reports

- Reports, New Report, choose Players with Match Performances.
- Group by Player and summarise Runs Scored and Wickets.
- Save the report in a folder and add it to the app navigation.

Note: the field and flow details above are the proposed design. Replace any item with your own if you built it differently, and add screenshots of each step.
